### Business Essentials Service (BES)

For Small Businesses this provides;

- the client application which can be used by an unlimited number of users,
- the administrative console,
- the installation wizard,
- a bundle of 1,000 seals, and
- three support tickets for resolution during normal business hours plus
- an upgrade to the next client application during the first year of purchase.

### Business Service – (BSSE) and (BSPE)

For Medium Sized Businesses there are two levels of product, Business Service Standard and Business Service Professional. They have all the benefits of BES, plus;

- Standard Service has a bundle of 12,000, and
- 6 support tickets for resolution during extended business hours (18/5).
- Professional has a bundle of a 18,000 seals, and
- 12 support tickets for resolution during extended business hours (18/5).

Both benefit from an upgrade to the next client application during the first two years of purchase.

### Enterprise Service (EE)

For large and very large businesses there is an enterprise product. This has all the benefits of Business Service Professional Edition plus;

- A bundle of 200,000, and
- 24 support tickets for resolution during a 24/5 week.
